

## Union Marine Management Services Pte Ltd

February 4th 2021

**Union Marine Management Services, UMMS**, is pleased to announce the addition of M.V. YMK Quartet as the newest family member in the fleet.

The vessel is flagged under LISCR and classed with DNV GL - Maritime and is owned by Kambara Kisen and chartered to COFCO International. She is a 82,000 dwt bulk carrier built at Jiangsu New Yangzi Shipbuilding Co. Ltd.

We would like to thank the owners for their unconditional support, our staff ashore for their wonderful effort in making all the preparations and carefully planning every tiny detail and above all, our staff onboard who have joined the vessel just before the Chinese New Year with great difficulty and braving a lot of hardships.

We wish her safe sailings and good health.

**Together we sail...**
